Wheaton College PsyD Financial Aid Request Form
Years 5, 6 & 7 PsyD Students

Please read and complete the information below. Return completed form to Ted Kahn in the Psychology Department.

Financial Aid Policy: The PSYD program was originally designed to be completed in five years. However, in recent years, the path to completion of the degree has become more varied due to various circumstances. Due to the varied nature of student plans for degree completion, each PSYD student must indicate their plans for each academic year past the 4th year on this form in order to receive financial aid. Financial aid eligibility will only be considered for those courses and hours that are required to complete the degree.
