

Major Academic Plan (MAP) for Catalog Year 2024-2025

The catalog is the final authority on CATC and major requirements; this is intended as a tool for planning purposes. Student course sequencing may vary depending on course offerings and other variables.

Notes or Special Guidance for Majors:

*Course has prerequisite

^F Fall only course

⁵ Spring only course

¹Classes that meet CATC tags are MATH 231 (AAQR) and PHYS 231 (SP).

² CHEM 294 has two distinct courses that should be taken in order: first the fall course, followed by the spring course.

³ Either CHEM 455 or 457 (Adv. Analytical I or II) is required (students choose which one). Additionally, two upper-level elective courses are required (4 or 6 combined hours), one of which must be a lab course (designated with an 'L' suffix). Chemistry electives include: 372^{*,S}, 436^{*,F}, 437^{*,F}, 455L^{*,S} or 457L^{*,F} (the one not already taken as a requirement), 461^{*,S}, 463L^{*,S}, 475L^{*,S}, 485L^{*,S}.
