

Select Chronology

The following chronology documents events in the life of Billy Graham and the history of the Billy Graham Evangelistic Association (BGEA), mainly up to Rev. Graham's retirement in 2005, but also includes a few later significant events. Please note that this a partial chronology and does not include all BGEA events.

For each event, the chronology includes at least the year of the event and a brief description in the "Event" column. The chart also generally documents the location and dates of the event, the overall attendance, and the number of inquirers (individuals who came forward at the invitation), and any Wheaton College Billy Graham Center Archives collections with information about the event. The attendance and inquiry figures are taken from press releases, statistical reports, or similar documents prepared by the BGEA.

For each event, the main BGEA staff person involved (if not obvious from the text) is indicated by the initials in parentheses at the end of the text. For example, the entry for 1966 "Mott Haven Reformed Church (RB)" indicates Ralph Bell was the speaker for the event. A key to the initials used for Associate Evangelists appears on the second page. If there are no initials, it was likely a Billy Graham event.

The numbers in the "Collection" column correspond to Archives collections containing information on a particular event. For example, the chronology shows that Collections 5, 118, and 295 contain information about the 1934 Ham-Ramsey meetings in Charlotte, North Carolina.

NOTE: This chronology is periodically updated to include new or corrected information. Last updated: 11/20/2024.
