July 21, 2020

Dear CSA Early Childhood Families,

I hope you are enjoying your summer as well as the on-line music options offered by CSA.

In light of continued safety concerns and the uncertainty about in-person (music) instruction, we have made the decision for Early Childhood and Young Musicians a the Keyboard classes to remain in a virtual mode for the fall 2020 semester. I know this will be a disappointment but I also know that you recognize the importance of a COVID-safe environment for your family and our faculty.

We have made slight changes to the fall offerings. The price reduction you will see acknowledges that we are in extraordinary times. Class lengths have been reduced in order not to prolong screen time for your children. For the Music Makers 2 class we are offering a Recorder enrichment class as no additional cost.

Scheduled times for classes may be modified as school districts finalize their plans for instruction in an effort to accommodate our CSA families. Questions or concerns of this nature may be directed to your Early Childhood teacher.

Below is a link to the Early Childhood page on the website that outlines the offerings, the schedules and the pricing. Please click the "Register Here" link, complete the registration form and mail a $30 check to the address on the registration form to reserve your spot now for fall.

We value our CSA Early Childhood families. It is our honor to provide music education for your children during their critical learning window.

We hope that music class is a bright light in your family life as CSA loves making music with you.

Paula Cisar, Director
Community School of the Arts, Wheaton College
